

Julia Nordin

Julia Nordin works at the International Patient Organisation for Primary Immunodeficiencies (IPOPI) as NMO Programmes Officer since the beginning of 2019. In this position she is responsible for providing support to IPOPI's national member organisations and monitoring and encouraging their national activities. Beyond this she works with the organisation of regional PID patient's meetings, workshops and awareness campaigns as well as managing support programmes and providing support to IPOPI's Medical Advisory Panel. Prior to joining IPOPI she worked administratively within the health sector in Stockholm, Sweden. Julia holds a bachelor's degree in Global development and a master's degree in Political science, specialising in governance, leadership and democracy studies.
