

Ms. Jessie Qu

Ms. Jessie Qu is the founder of PID Care China, a patient-support group for primary immune deficiency (PID) patients in China. In her role, she works to help PID patients/caregivers identify the right treatment methods, lobby government authorities for their support; and increase awareness of PID among patients so that they can get timely and appropriate diagnosis and treatment.

PID Care China has organised informative and networking events in big cities like Shenzhen, Shanghai, Qingdao, Chongqing etc. with more events planned in other Chinese cities in the near future. PID Care China welcome opportunities to collaborate with Pharmaceutical Companies, Medical Institutions and other interest groups to further reach-out to patients and their families worldwide.
