EN AMÉRICA LATINA

Dr Carolina Prando

Carolina Prando is a physician scientist specialized in Allergy and Immunology and holding a PhD in Pharmacology and a Master's in Paediatrics. She dedicates her career to caring for people with Inborn Errors of Immunity and coordinating a research group on the Genetics of Inborn Errors of Immunity. In 2013, Carolina began structuring the multidisciplinary Clinical Immunology service at the largest exclusively paediatric hospital in Brazil - Pequeno Príncipe Hospital. She is currently a professor on the Postgraduate Course in Biotechnology Applied to Children's Health and coordinates the Rare Disease Genetics research group at the Pelé Pequeno Príncipe Research Institute, where she also acts as Director of Translational Medicine.
