Ms Juçáira Stella Martins Giusti

Ms Juçáira currently serves as the Vice President of the Patients Association "Eu Luto Pela Imuno Brasil - ELPIB." She received her diagnosis of common variable immunodeficiency in 2011 at the age of 46, just six months after her youngest son received the same diagnosis. She holds a PhD in dental sciences and has a background in pediatric dentistry and laser therapy. She ended her clinical activities at the beginning of the COVID 19 pandemic, when she began to dedicate herself to voluntary work with the association.
