- 10.Estonia, Iran, Puerto Rico, Sweden
- 11. Finland, Israel, Netherlands, India
- 12. Spain, Venezuela, Belarus, Switzerland, Malaysia

LET'S PLAY **LevelUp**

WHAT IS?

Get ready to boost your organisation's game! LevelUp is here to help your organisation assess and enhance its maturity in two key areas: **Mission** and **Governance**.

Through this game, you'll identify strengths, pinpoint areas for improvement, prioritise actions, and create a strategic action plan.

HOW TO PLAY **LevelUp**

STEP 1 – SELFEVALUATION

(15m)

Dive in and assess your organisation's maturity in various categories. Use colourful pins to mark your level from 1 to 5 based on each statement. Think of this as painting a vibrant picture of where you stand!

STEP 2 – PRIORITISATION

(7m)

From your self-evaluation, choose 4 topics that need your attention. Select 2 topics from each category and mark them with red flag pins. These don't have to be the lowest scores, just the ones that matter most for your growth.

STEP 3 - DISCUSSION

(25m)

Gather around with the participants from different countries in your table. Choose together 3-4 priority categories and use the discussion cards from the deck to spark insightful conversations. Share ideas, learn from other, and brainstorm your way to brilliance!

STEP 4 - ACTION PLAN

(15m)

Return to your board and pick one priority to develop a detailed action plan. Outline the steps you'll take to address this priority and set goals for improvement.

HOW WAS THE GAME?

KEEP THE MOMENTUM GOING

The game doesn't end here!

Take your newfound insights and action plans back home. Gather your Board Members and Advisors, replicate the process, and tailor your strategy to your specific situation.

Focus on one goal at a time to LevelUp your organisation.
