

Prof Monika Esser

Prof Esser is a Paediatric Rheumatologist and Emeritus Associate Professor, formerly Head of the National Health Laboratory Service Tygerberg Immunology Unit at Stellenbosch University's Division of Immunology and Medical Microbiology in Cape Town, South Africa.

With a distinguished career spanning clinical practice, academic leadership, and patient advocacy, Prof Monika Esser also served as a Senior Lecturer in the Department of Paediatrics and Child Health at Stellenbosch University.

A founding member and past Board member of the African Society for Immunodeficiencies (ASID), she continues to contribute to the field as Medical Advisor to the South African Immunodeficiency Patient Network (PiNSA) and as a consultant to the Stellenbosch University/MRC Genetic Working Group (PIDGEN) for Immunodeficiency Diseases.
