

Timothy Mukasa

Bogezi Timothy Mukasa is a 24-year-old Primary Immune Deficiency male patient who lives in Uganda. He is the first born of the 3 children. He works as a data entrant at a microfinance. Born on 8th August 2001 and was nurtured by both parents but his father passed when he was 19 years of age and monthly immunoglobins therapy. He studied from kindergarten to university and graduated with a bachelor's degree of Information Systems thus having computer skills. He loves working with computers and aspires to be a system administrator.
